Understanding
OVERDRAFT

An
overdraft
occurs when you
spend more money
than you have available
in your checking
account, resulting
in a negative
balance

Most
financial
institutions offer
overdraft protection,
but relying on this service
without fully understanding
how it works can create a
cycle of overdraft and NSF
(non-sufficient funds)
fees that's hard to
break out of

OVERDRAFT SCENARIOS

ACCOUNT BALANCE IGNORANCE

*Not keeping track of
your account totals*

HOLD ON

*Making purchases
that place holds on
your account*

PROCESSING LIMITATIONS

*Spending money before
a paycheck has cleared*

OVERDRAFT PROTECTION

VS.

OPTING OUT

Let's say that you're buying a brand-new gadget at the store. Your last paycheck hasn't cleared, so you're unaware that your current available balance is only \$150. The gadget costs \$160. You pull out your debit card and...

WITH OVERDRAFT PROTECTION

The transaction goes through

WITHOUT OVERDRAFT PROTECTION

Your card gets declined and the transaction does not go through

WITH OVERDRAFT PROTECTION

Depending on how your financial institution handles overdraft situations:

Funds are transferred from your savings account to cover the transaction

OR

Your account then becomes overdrawn, resulting in a negative balance

WITH OVERDRAFT PROTECTION

BENEFIT

**You avoid the inconvenient situation of
having your card declined**

WITHOUT OVERDRAFT PROTECTION

BENEFIT

You avoid a negative balance and any potential NSF (non-sufficient funds) fees that go along with it

WITH OVERDRAFT PROTECTION

CONSIDERATIONS

You may be charged an overdraft fee

—

You may be charged an NSF (non-sufficient funds) fee for having a negative balance

You may also be charged a recurring fee until your balance is positive

—

If you frequently overdraw your account, you may be able to pay a monthly fee to reduce your total fee costs

WITHOUT OVERDRAFT PROTECTION

CONSIDERATIONS

**Having your card declined
can be inconvenient and
embarrassing**

—

**In emergency situations, it
can be extremely troubling**

DID YOU KNOW?

According to Regulation E,
consumers have the ability to opt
out of overdraft protection
for any debit card or
ATM transaction

HOW TO STAY AHEAD OF THE FEES

SET UP ALERTS

Most financial institutions will allow you to set up alerts that will inform you of your balance

BORROW BETTER

To protect yourself from the high costs of fees, consider taking out a credit card with a low interest rate for emergencies

BALANCE YOUR CHECKBOOK

This will give you a firm knowledge of how much money is in your checking account

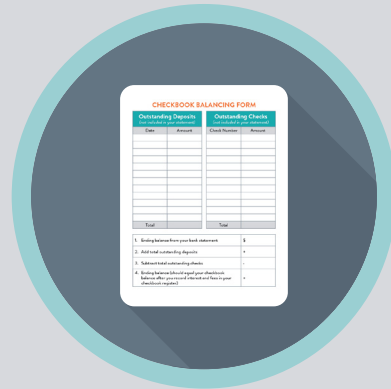

Balance Your
CHECKBOOK

BALANCE YOUR CHECKBOOK

WHAT YOU'LL NEED

Your most recent statement and/or canceled checks

A checkbook balancing form

Your checkbook register

A calculator and a pencil

STEP

1

RECONCILE YOUR CHECKS

*Determine if there are
checks that haven't cleared
your account*

STEP

2

RECONCILE YOUR DEPOSITS

Make sure each deposit shown on your statement is recorded in your checkbook register

STEP

3

RECONCILE YOUR ATM WITHDRAWALS AND DEBIT CARD PURCHASES

*Go through the same process
with your ATM withdrawals
and debit card purchases*

STEP

4

RECORD INTEREST EARNED AND FEES

*Check your statement
for any other fees and
record them in your
checkbook register*
